

**School Modernization Committee**  
**Potential Options for Consideration**  
**5/20/20**

*Assumptions:*

- *All configurations are on the table (renovation, renovate-to-new, addition, new construction)*
- *Plan will be phased over multiple years*

Lead with the High School

- Highly visible, “marquee” school facility in town
- Widely used by the community at large (facility & grounds)
- Big educational impact and positive impact beyond school community

Lead with the Middle School

- Achieve education goal of 6-8 school
- Potential ripple effect on other school bldgs. and potential long-term cost savings
  - Allow Doolittle kindergarten to move from Darcey to Doolittle
  - Potential to relocate pre-K and Birth-to-3 (to Highland?)
  - Close/repurpose Darcey
  - Potential impact of 6<sup>th</sup> grade no longer being in elementary schools – 3 elementary schools vs. 4?
- If moved to different location, potential to repurpose Dodd as an elementary school, if needed, or to house alternative high school & CPS offices (close Humiston)
- If relocate, consider Doolittle campus

Close Humiston School

- Need appropriate facility for alternative high school

Improvements & additions to other buildings to close Chapman & Darcey?
