Subject: RE: Orchard View Subdivision - Sight Line Memo

Good Morning William,

I wanted to make you aware that according to CT DOT ISD, a single unit truck and tractor trailer semi would need 560 feet and 680 feet respectively when traveling 40 MPH on Academy Rd.; within the range of sight distance on that road. After reading the memorandum, I agree with the sightline assessment. Any questions, please contact me at (203)271-5544. Thank you.

Kristian Johnson
